EAST JORDAN, MICHIGAN, SATURDAY, DECEMBER 15, 1906.

No 49

Dora Thorne.

One of the most important announcements of the season in the dramatic field of popular priced amusements, is the dramatization of "Dora Thorne," Bertha M. Clay's novel of international fame. "Dora Thorne" is one of the most successful novels of its kind ever written. Time only increases its value and enhances its popularity, proving more than all else its useful work in the literary world. A story full of humor and pathos, well defined characters, and sincere heart interest; "Dora Thorne" is one of the most successful of the many dramatized novels. There are several versions of this play now before the public, but none of them are like the novel, with the exception of C. S. Sullivan's which follows closely the book, and is the only "Dora Thorne" that is fully protected by copyright. Mr. Sullivan's company is billed to appear in this city at the Loveland Opera House Monday night next, and will include a remarkable cast of players and beautiful scenic equipment every care and attention will be given to make this production praiseworthy in all respects. All who have read the novel, and those who have not, cannot help but feel refreshed and benefited by this wholesome play. Seats now on sale at popular prices.

Michigan Crop Report.

Lansing, Mich., Dec. 10, 1906. The temperature during November, according to the Michigan State Weather Bureau, was about normal, and the precipitation slightly above the average. This pleasant weather enabled farmers to secure their crops in excellent condition. Sugar beets are about all harvested, but the difficulty in getting cars has delayed delivery to factories in many localities.

WHEAT.

The condition of wheat as compared with an average per cent is 86 in the State and central counties, 85 in the southern counties and 91 in the northern counties. Wheat made a fair growth during the fall, but owing to extreme drought much of the sowing was late, consequently the greater portion of the acreage, while in a healthy condition, goes into the winter with very small top.

RYE.

The condition of rye as compared with the average per cent is 88 in the southern counties, 87 in the central counties, 92 in the northern counties, and 89 in the State.

LIVE STOCK.

The condition of live stock throughout the State is 96 for horses, sheep and swine, and 95 for cattle. Correspondents report hog cholera in Calhoun, Hillsdale, Jackson, Kent, St. Joseph, Van Buren and Washtenaw counties.

Freedom That is Bondage.

The anarchist proclaims that he is free; that he acknowledges no ruler, feels no obligation to obey any law. But he is as soon as recognized, driven from one country to another, imprisoned, hanged, thought of everywhere as a menace to society. The man who respects the chosen rulers and obeys the laws of his country goes about freely and unafraid, protected by the power that punishes the p-a-r-t-disturber and the law-breaker, and is treated as a valued part of his home nation. We are all tragically familiar with men of all ages who decline to give up their freedom to drink when and what they please. Our prisons and insane asylums swarm with them. Their boasted liberty is the direst bondage which holds them from success. How many parents, relatives, friends, use their freedom to bind themselves! We have all been in homes where the mother utilized her freedom to scold, upbraid and irritate, and thus to estrange her husband and children, and who lamented bitterly that she was neglected and unappreciated. How often is friendship strangled by the freedom that allows one to dictate and domineer and demand—the freedom that chooses to be bound to arrogance and selfishness rather than by gentleness and generosity.—Lida A. Churchill in the January Delinquent.

A proposition for fire protection to the Coopersage was accepted.

Injurers Proved Fatal

Mayor of St. Johns was Burned in Gasoline Explosion.

St. Johns, Dec. 10.—Mayor John McKinley, of this city, who was injured in a gasoline explosion at the rear of his store last Friday night, died Sunday from his injuries.

The store is lighted by gasoline light and the fluid is conveyed from the tank outside through small tubes. These were frozen and the mayor took a blow torch to thaw them out with. The fluid within took fire and was carried in a twinkling to the tank containing twenty gallons of gasoline, which exploded, throwing Mr. McKinley several yards and burning him badly.

His struggle for life was pathetic and had he had nothing but the burns to recover from it is thought he would have lived. The injuries from the force of the explosion proved fatal, however.
Mr. McKinley was born in Ridgetown, Ont., in 1858, and came to this city three years ago. He was engaged in general mercantile business at the time of his death.

Mr. Dooley's New Observations.

In the language of a friend "Dooley is gittin' gayer and wiser all the time." He has never written so brilliantly as in the new series of Dooley articles which are now appearing in The Chicago Sunday Record-Herald. His views on "Me Young Friend Count Boney's Love Affairs," "The President's Activities" and other timely observations in the new series are the choicest things the author has ever offered his thousands of admirers, full of witty sayings which will be quoted for years to come. These "Dooley" articles, each complete in itself, will appear in successive Sunday issues of the Record-Herald.

Small classes, Individual Instruction.

M. O. Graves, M. A.,
(University of Michigan)
Principal.

County Normal Notes.

Tuesday the normal class, accompanied by Miss Himes visited Miss Jarvis and Miss Manson in the Washington school on the north side, for the purpose of observing the work. Thursday afternoon we went to the training room for another observation lesson. We think that these lessons will be very helpful to us.
Read work has been introduced in the Normal school this year for work in manual training. We have learned to make for-get-me-not and daisy chains, and now we are making the daisy chain with a vine. It is a very pretty design. We are also doing work with raffia.
The normal students are preparing to give a reception to the teachers.
